

## COMPANY PROFILE

### **AmpTec Industrial Heating Pte. Ltd... your partner for industrial heating**

Since 1992, AmpTec distributes a comprehensive range of high end electrical heating elements for industrial applications and serve more than 500 companies in Singapore and the region.

This activity was complemented in 1996 by Dinamec Industrial Services, a subsidiary company specialized in stripping of organic material from tooling for the plastic and compounding industries.

Based on its extensive industry knowledge gained over the past decade, AmpTec is now a recognized solution provider for heating process. AmpTec advises and implements improvements of both existing and new processes. AmpTec is committed to be your long term partner for industrial heating solutions and servicing in Singapore and South-East Asia.

Our technological know-how combined with world-class suppliers provide to our customers innovative solutions and an unique quality of services.

### **AMPTEC MAIN PRODUCT LINES**

#### **Hotset (Germany)**

With more than 25 years of experience, Hotset develops, manufactures and distributes electrical heating elements for industrial applications from the location in Germany. High watt density cartridge heaters, coil heaters, the flexible tubular heater Hotflex<sup>®</sup>, machine nozzles, nozzle heaters, thermocouples and temperature controllers by Hotset are mainly used in the plastic processing industry, the mechanical engineering, the packaging industry and the foundry technology, but as well in numerous other branches world-wide.

At all time, the name Hotset stands for innovative and user-oriented heating elements, combined with a general customer-oriented service conscious.

Our references include:

- 1) FIRST ENGINEERING PLASTICS PTE LTD
- 2) SINGAPORE DAI-ICHI PTE LTD
- 3) BECTON DICKINSON MEDICAL (S) PTE LTD
- 4) HI-P INTERNATIONAL LTD
- 5) BAXTER HEALTHCARE SA (SINGAPORE BRANCH)

#### **Process Technology (USA)**

For over twenty-five years, Process Technology has been the leading manufacturer of electric immersion heaters, heating and cooling coils, controls, instantaneous heaters, liquid level controls, over-temperature protection systems and accessories. Our product line is among the most comprehensive and diverse available, with both standard and custom configurations to suit your specific application. Process Technology has stood for excellence in design and quality of process heating equipment. Each year we have continued to maintain an aggressive program of "product improvement and new product introduction". Process Technology has strived to make our name synonymous with quality process heating equipment and controls possessing state-of-the-art features, unmatched reliability and outstanding performance. Process

Technology has always offered the highest quality products for the best value and plans on continuing to exceed industry standards for the life of the company.

For plating automation, metal finishing and chemical treatment application (mainly Immersion Heaters type), process technique cover a wide range of immersion heater.

For plating automation line, it is one of the layer key suppliers in the world for metal treatment – OEM, such as PAL Line, HBO, MECO Macdemic.

Our references include:

- 1) MOLEX SINGAPORE PTE LTD
- 2) ST AEROSPACE ENGINES PTE LTD
- 3) HAMILTON SUNDSTRAND PACIFIC AEROSPACE PTE LTD
- 4) GE AVIATION SERVICE OPERATION PTE LTD
- 5) HITACHI CHEMICAL (SINGAPORE) PTE LTD

#### **SAB – GERMANY**

It is one of the world largest wire manufacturers for Thermocouple Communication and Single Cable.

We carry a wide range of stock for all industrial application needs.

#### **DINAMEC INDUSTRIAL TRADE AND SERVICES**

To better serve the industry, AmpTec provides tools cleaning services based on the fluidised bed technology. We strongly promote to our client preventive maintenance of tooling to decrease downtime and increase quality and productivity. Test our services and we will be your partner for life.

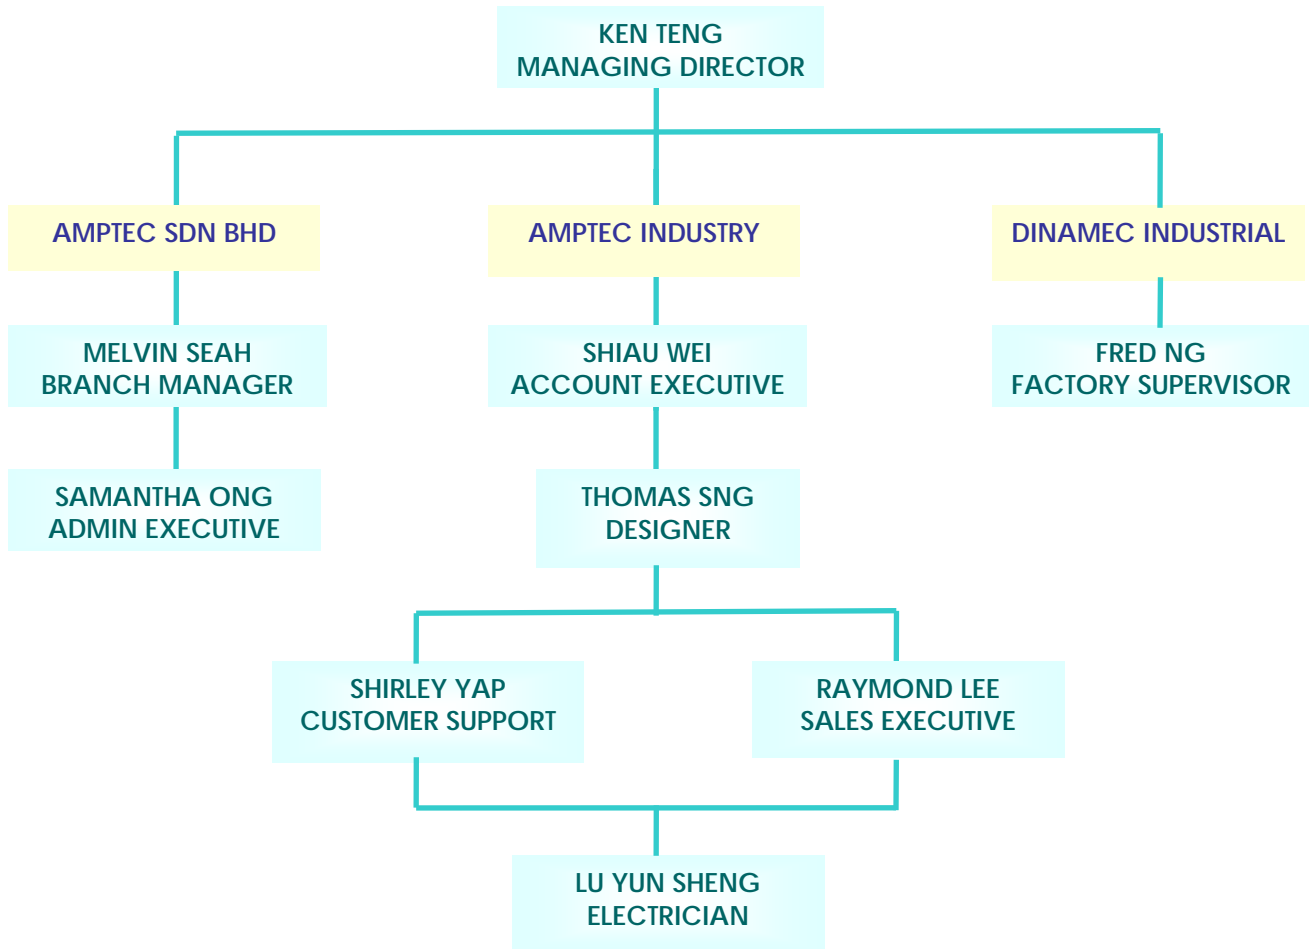

Dinamec Industrial supports mainly the plastic molding industry by taking care of the daily cleaning problem in a friendly environmentally manner.

Typical part cleaned include runners, screws, barrels, hot oil channels...

Our main customers are:

- 1) CHEVLON PHILIPS CHEMICALS ASIA PTE LTD
- 2) DUPONT COMPANY (S) PTE LTD
- 3) SABIC INNOVATIVE PLASTICS SINGAPORE PTE LTD
